

### Neon Message moving Sign .

Specilities:

1. With Neon colorful back ground ,make LED sign more flashing & shinning ,catching more eyesights. And then complete message or advertisement transfer to people.
2. Easier input than normal LED sign ,no need computers,just by RF controller which can controll and input text and flash mode as your request.
3. Cost cheaper than full color LED sign and give equivalent efficiency.

#### 4. *Model* : TPNEONP15LEDSIGN ,NEON MESSAGE SIGN

PARAMETER	UNIT	VALUE
Pixel Pitch	mm	15
Density	dots/m <sup>2</sup>	4444
INPUT		RF REMOTE CONTROOLLER IN 15 METERS
NET WEIGHT/PER SQUARE METER	KGS	40
Best viewing distance	m	<b>7 – 30 meters</b>
viewing angle(horizontal/ vertical)		<b>120°/110°</b>
Average power consumption		< 150 W / m <sup>2</sup>
Colors		65,536
Gray scale		8bits
Color temperature	deg.k	6500
Driving device		constant current
Duty mode		1/4
Frame frequence	Hz	60
Refresh frequence	Hz	300

Brightness	cd/ m <sup>2</sup>	4500
Working voltage		VAC240V -100
Working temperature		25°C~45°C
Working humidity range		10%~90%
Environmental temperature		-25°C~50°C
IP grade(front/rear)outdoor & indoor		IP65/IP54
WARRANTY TIME		2 YEARS

**PLEASE REFER TO THE ATTACHED VIDEO FILE FOR KNOW MORE EFFICIENCY.**

ACCESSORIES :

RF remote controller for INPUT TEXT/MESSAGE & FLASH MODE
